

**Panasonic**

**UNSTOPPABLE SECURITY.**

# DON'T LET SCANNERS BE THE **WEAK LINK IN YOUR SECURITY**

Panasonic scanners are the solution you are looking for.

Government at every level is responsible for critical information. Basic, everyday data – like driver's license or passport scans - can cause immense harm if it falls into the wrong hands.

Panasonic scanners purge their memory after every scan job. This automatic erasure prevents malicious employees and hackers from retrieving sensitive data.

**Without Auto Erasure, every scanner you own is a potential treasure trove for identity theft or security breach.**

**Easily scan hard cards and other mixed media**

**Auto Erasure keeps scans safe**

**Procurement Ready**

**CONTACT US TODAY FOR A BRIEFING WITH THE PANASONIC TEAM!**
