THE CUSTOMER

CORNHUSKER BANK
Committed to your success.

Cornhusker Bank's legacy began in 1903, when Farmers State Bank was chartered in Davey, just north of Lincoln. The bank moved to Lincoln in 1960 and was renamed Cornhusker Bank, to better reflect the Nebraska values it embraces. Since that time, the bank has added multiple convenient branch and ATM locations around the city of Lincoln, as well as embraced technology to give you 24/7 online and mobile banking solutions. We are committed to providing you access to our services when and where you need them. It's easy to find a location and method where you can get the financial solutions you need.

Cornhusker Bank is more than just a financial institution. We're a neighbor. As a member of the Lincoln area community for more than 100 years, Cornhusker Bank understands Lincoln and how important trusted relationships are. No matter what your needs, our local ownership and decision makers are here to react and deliver quality solutions you can count on. Committed to your success is not just a goal, it's how we live. Our 360 service model is focused on surrounding you with the best experience possible. We strive to continuously enhance the experience each and every day, in order to be "the bank of choice" for both our internal and external customers. Thank you for allowing us to serve you. We value the trust you have in our team at Cornhusker Bank. Stop by a branch some time and have a cup of coffee with us.

THE DILEMMA

Cornhusker Bank was getting ready to build their new corporate center and with thinking about their new space, they knew they wanted their meeting spaces to have the latest and easy to use technology. With just shy of 100 employees in the building, they wanted to make sure everyone would feel comfortable using the technology as needed. Not only was the ease of use of the technology important to them, but they also wanted to ensure the technology didn't take away from the design and feel of the rooms.

"From the beginning, Bizco brought forward great ideas and solutions to address our business needs. The team was very detailed and responded well to our challenging questions. It was clear Bizco was well equipped to handle a project of this magnitude."
